The conductors should be composed of high conductivity annealed copper and the finished cable should conform to the latest B.E.S.A. or A.I.E.E. standards in other respects.

The cable should also be tested according to any one of the abovementioned standards and test reports submitted to us.

The time required for supplying the material should be definitely mentioned.

2. Any further particulars the tenderers may require may be had on application to the Chief Electrical Engineer.

Abstract Notification dated 27th April 1936.

C. R. GOWDA,
Superintendent.

OFFICE OF THE EXECUTIVE ENGINEER, C.P.S., SIVASAMUDRAM.

Notification dated 25th April 1936.

Notice is hereby given that quotations will be received from piece work contractors at the Office of the Executive Engineer, C.P.S., Sivasamudram, up to 2 P.M., on Saturday the 9th May 1936, for construction of temporary quarters for the staff at Sivasamudram. An approximate estimate of quantities is given below. These quantities are not guaranteed.

The work entrusted to any contractor should be completed within one month. If the progress of work of any contractor is not found satisfactory, his contract will be cancelled by the Executive Engineer, without notice after withholding such penalty as may be fixed by the Executive Engineer, at the time of drawing up the agreement.

2. The plans, detailed estimates and conditions may be seen at the Office of the Executive Engineer, during the working hours on any working day.

3. Quotations may be submitted on printed forms, which may be obtained from the Executive Engineer. Quotations may be submitted for each block of quarters separately, as the work is proposed to be got executed by piecework agency through several contractors.

4. The final acceptance of the quotation of any pieceworker will rest with the Executive Engineer, who is not bound to accept the lowest or any quotation or to assign any reason whatever for the rejection of any tender. The Executive Engineer may accept or reject part or whole of any one quotation.

5. Immediately on acceptance of any quotation or part thereof, the piecework contractor will be bound to deposit as earnest money 5 per cent of the value of work entrusted to him. The earnest money will be refunded only after the settlement of the final claims of the contractor. Whenever the rate of progress or quality of work is not satisfactory, a penalty as may be specified by the Executive Engineer in the agreement will be levied which will be deducted either from the bills or earnest money.

6. Rates for non-quoted and non-estimated items will be fixed by the Executive Engineer from time to time.

7. Quotations should be submitted quoting rates for each item of work in any one building or a lumpsum rate for a whole building. In the latter case, the items of "Electric Lighting and Water Supply and maintenance charges for two years" provided in the estimate should be excluded.

8. The rates and units should be mentioned clearly in words. Any quotation quoted at so much percentage less or more than the estimated rate will not be accepted.
